

COMMISSION ON TECHNOLOGY
Agenda Information/Action Item
Meeting Date: November 4, 2011

<i>Agenda Item:</i>	<i>Type of Action Requested:</i>
<u>RECOMMENDATION TO AJC: PROPOSED CHANGES TO TECHNICAL STANDARDS</u>	<input checked="" type="checkbox"/> Formal Action/Request <input type="checkbox"/> Information Only <input type="checkbox"/> Other

FROM:

Mr. Stewart Bruner, AOC ITD Strategic Planning Manager

SUMMARY:

AOC's Information Technology Division has proposed updates to the three, decade-old technical standards, ACJA §§1-501, 1-504, and 1-506, to provide courts with updated guidance for operating in a federated, statewide e-filing model and, in the case of most limited jurisdiction courts, a shared electronic document management system. Blacklines of all proposed revisions were provided at the September COT meeting, but the chair requested additional time for members to review any items that affected business processes. Stewart will highlight changes to those blacklines made as a result of comments by members of AJC subcommittees, including COT, between September and today. Consideration of the proposed changes will next be taken up by AJC.

STAFF RECOMMENDATION:

Approve updates, with the understanding that the proposed revisions will still be reviewed by AJC.

ACTION OPTIONS:

MOTION:

1. Approve the revised content of the code sections, as presented.
2. Approve the revised code sections, but with specific changes in wording, as documented.
3. Disapprove the revised code sections, leaving the content as it appears today and making no recommendation for change to AJC.
4. Table discussion concerning revisions to e-filing related technical standards until a later time.
